3D Printed Landfill Modeling

Presented By: Janak Shah & Dirk BeGell

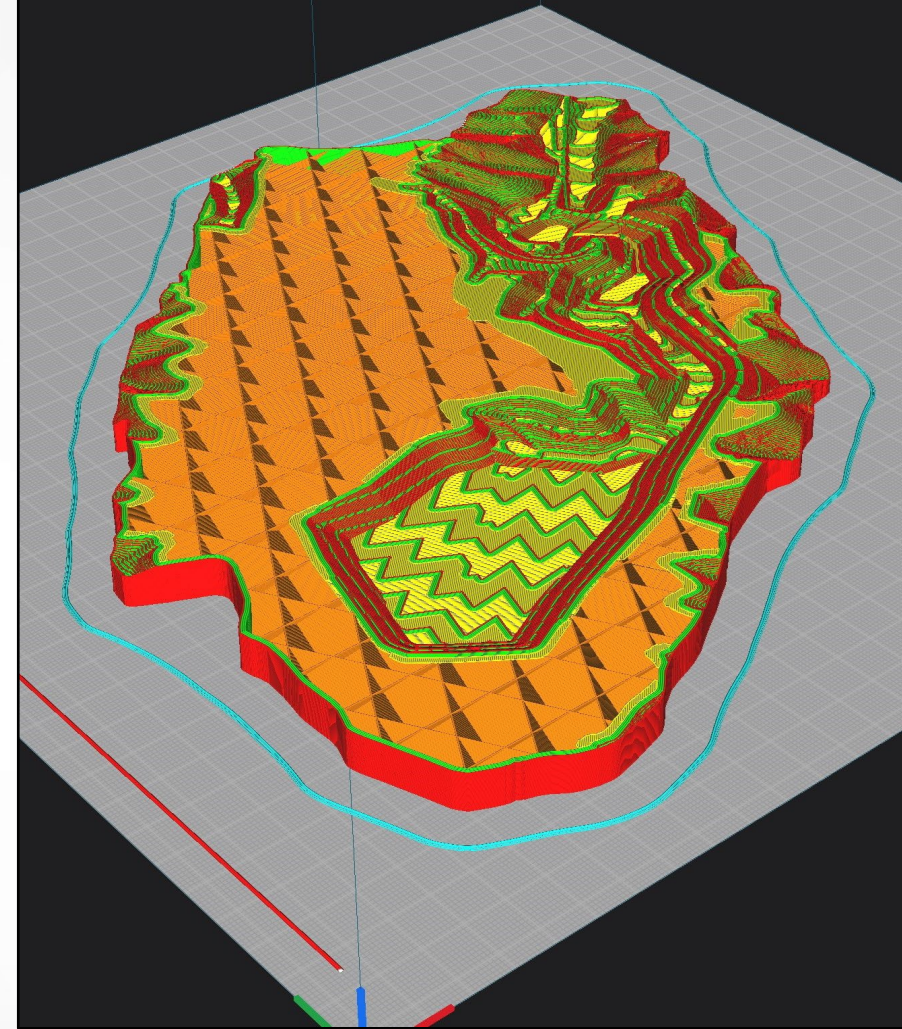

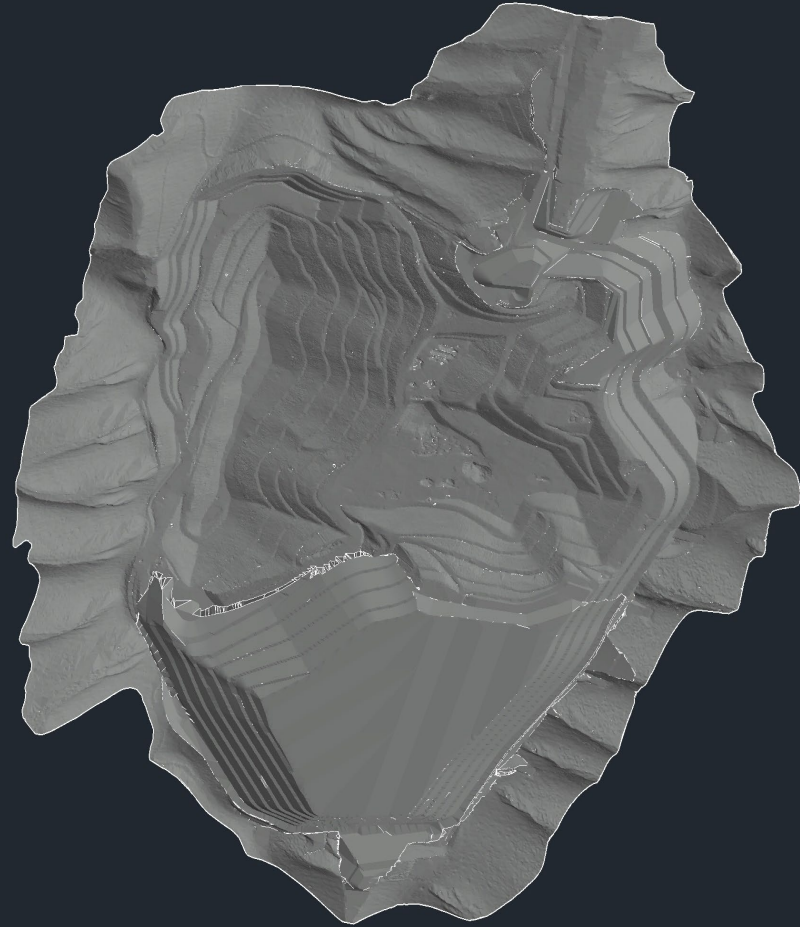

Introduction

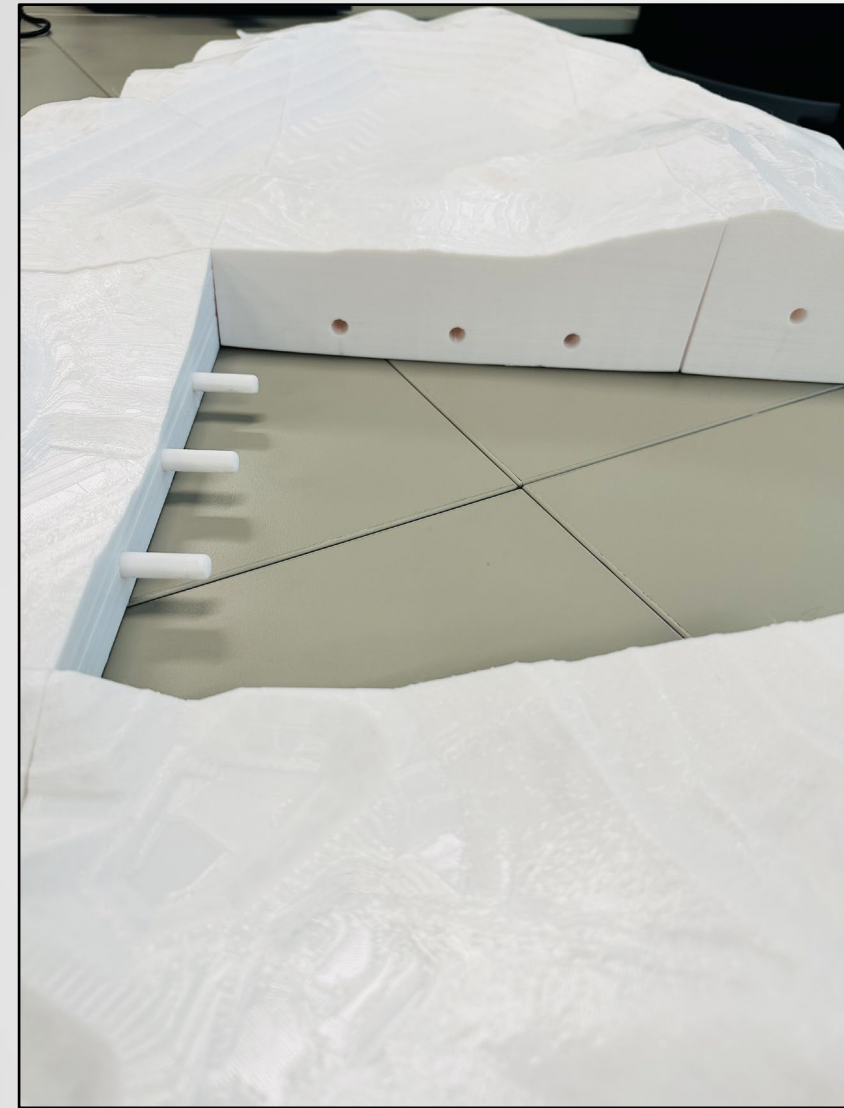

- Innovation
- Technology
- Quality

3D Printing Process

- Obtain a model
- Process data
- Print model

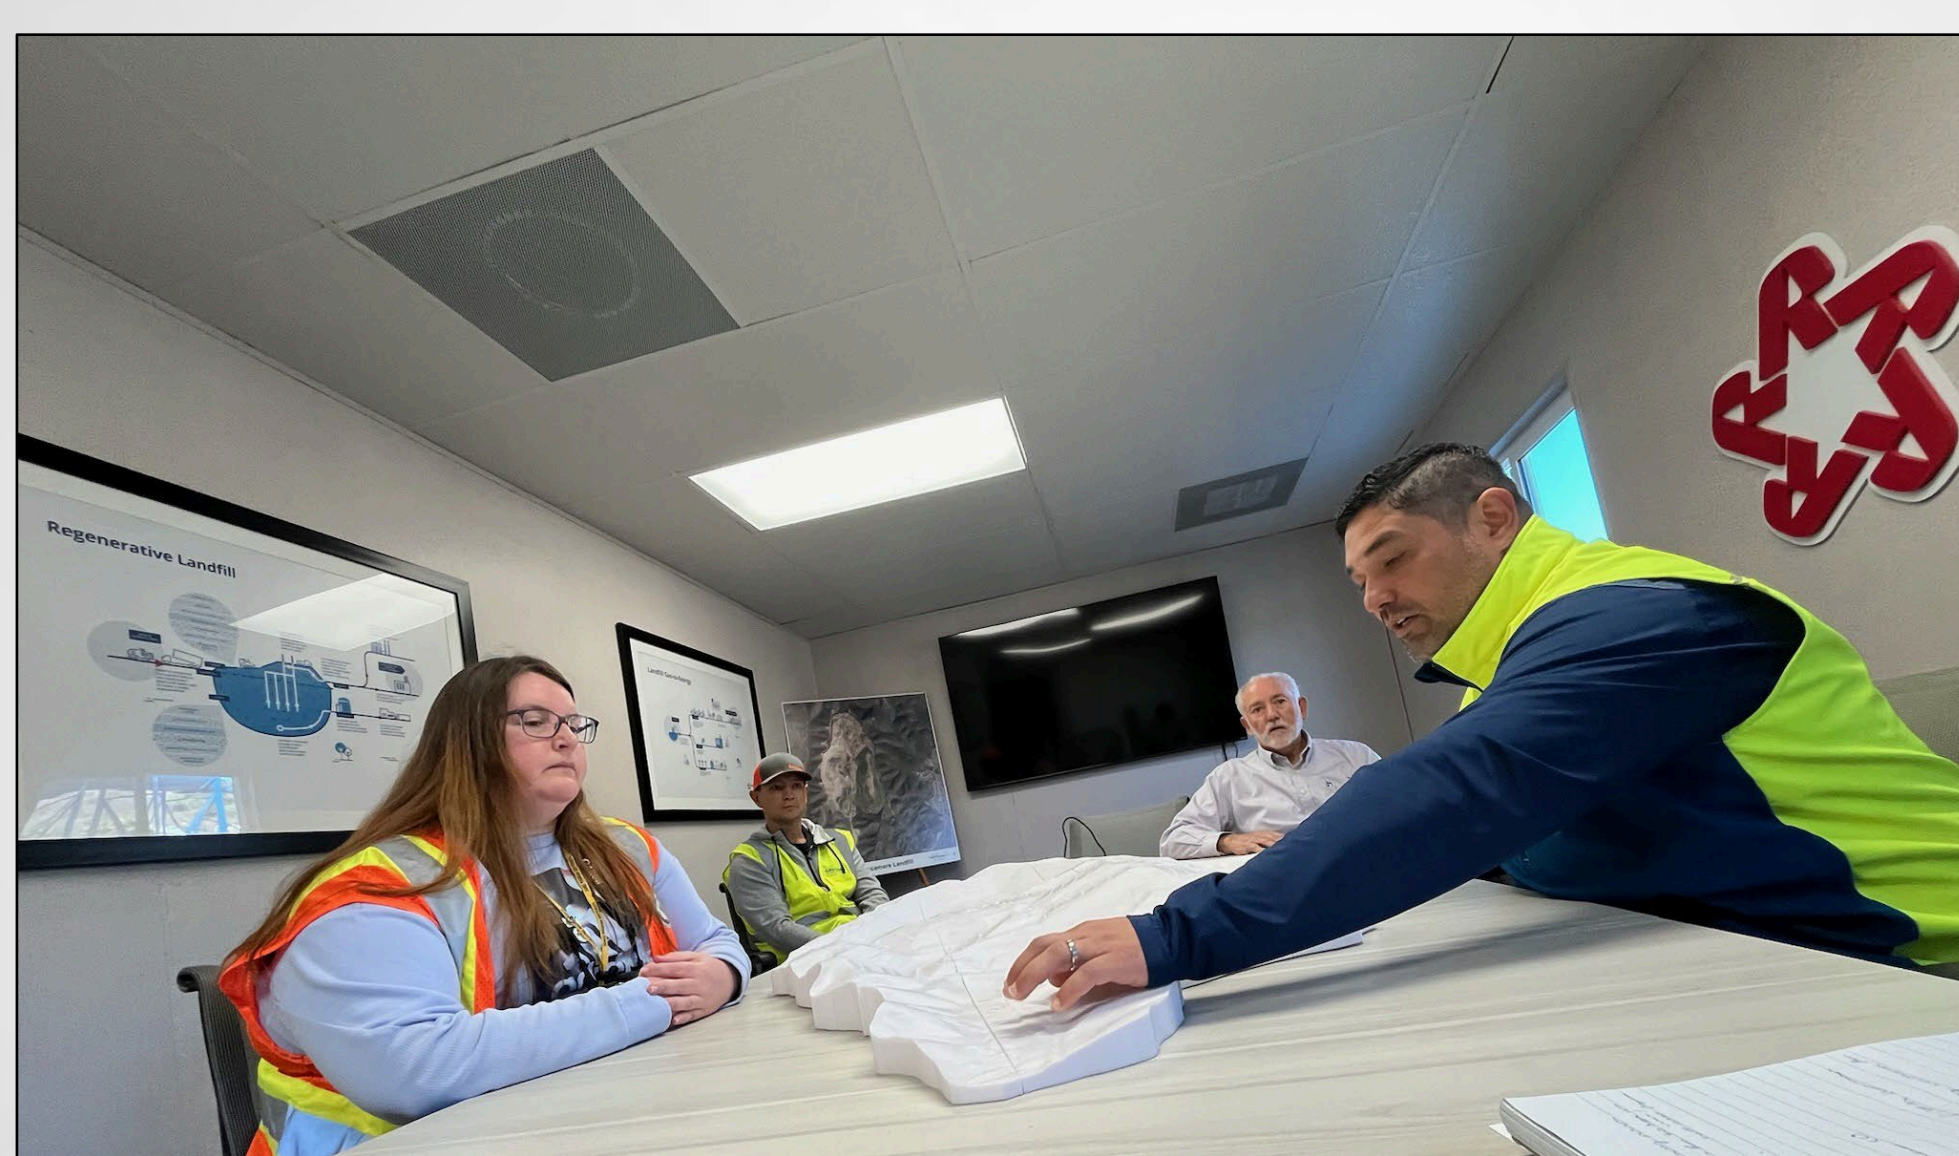

Post processing of 3D printed models

3D printed scaled landfill model at Global waste Symposium

**3D printed
model at client
landfill site**

Applications

- 3D printing services can be expanded for applications in almost every sector.
