

Diverse Services in CEC Cincinnati

The capabilities and service offerings of CEC's Cincinnati office continue to grow and diversify. Nathan Wesley Zink, Jeffrey Robert Sinnard, and Ameen Bakaré, three of our more recent additions, are seasoned professionals who each possess specialized expertise that makes our team uniquely qualified to respond to our clients' needs.

Nathan Wesley Zink, P.E., LEED AP
Senior Project Manager
Civil Engineering Practice
(513) 483-3508
nzink@cecinc.com

Nathan brings 16 years of civil and environmental consulting experience to CEC Cincinnati. He has a strong background in stormwater design, permitting, and implementation; site development, especially for energy-related projects; electric and gas utility permitting; and power plant, substation, and landfill site development and remediation.

His environmental design and permitting experience includes various types of Ohio, Kentucky, Pennsylvania, Indiana, and West Virginia permit applications. He also has experience developing and implementing long-range project forecasting plans, life cycle analysis for CCR ponds, and environmental monitoring programs.

Nathan is a P.E. in Ohio, Indiana, Kentucky, Pennsylvania, and West Virginia, and he also is a LEED Accredited Professional. He has a bachelor's degree in civil engineering from the University of Cincinnati and a master's degree in civil engineering from Colorado State University.

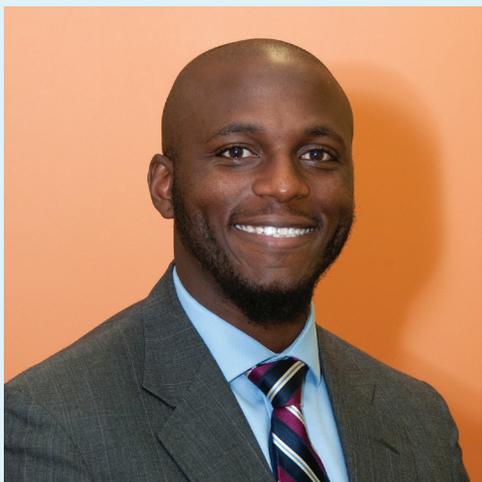

Jeffrey Robert Sinnard, P.E.
Project Manager III
Civil Engineering Practice
(513) 483-3519
jsinnard@cecinc.com

Jeff brings 32 years of experience to CEC Cincinnati. He is experienced in all aspects of land development, including hydrology and hydraulics, grading and earthwork analysis, roadway and highway design, storm and sanitary sewer design, and erosion and sedimentation control.

His project stormwater management designs have included dry ponds, underground tanks, and oversized pipes and rain gardens, many with provisions for Green Management Practices (GMP). He is experienced in the design and management of public and private improvement plans, as well as the design and administration of transportation projects.

Jeff is a P.E. in Ohio and Kentucky. He has a bachelor's degree in civil and environmental engineering from the University of Cincinnati.

Ameen Bakaré, E.I.T., LEED AP
Project Manager II
Civil Engineering Practice
(513) 483-3518
abakare@cecinc.com

Ameen brings to CEC Cincinnati more than 12 years of experience managing private site/civil and municipal infrastructure projects for public improvement. He has a strong background in green initiatives, value engineering, hydrologic and hydraulic modeling, rehabilitation and redevelopment, and utilizing effective construction administration practices to help build our communities.

He has diverse site development experiences working with public infrastructure, utility, and renewable energy projects; athletic fields; parks; residential, industrial, commercial/retail, and urban redevelopment projects; middle and high school vocational schools; and higher education. He is well versed in project technical specifications and construction management, including project review, inspections, infrastructure assessment, and state and national funding application processes.

Ameen is a LEED Accredited Professional with a bachelor's degree in civil and environmental engineering from the University of Cincinnati. He is a member of Engineers Without Borders and the National Society of Black Engineers.
