CIVIL & ENVIRONMENTAL CONSULTANTS, INC. ACQUIRES CHICAGO-BASED ROAKE AND ASSOCIATES, INC.

Relocates Existing Chicago Operations to Naperville, Illinois

CHICAGO — April 1, 2019 — [Civil & Environmental Consultants, Inc.](http://www.cecinc.com) (CEC) has relocated its Chicago operations from Lombard, Illinois, to Naperville, Illinois, following its acquisition of civil engineering and land surveying firm Roake and Associates, Inc. (Roake). Roake has consolidated its operations with CEC's existing Chicago office operations.

The acquisition is part of CEC's ongoing strategy and commitment to grow and diversify the capabilities of its Civil Engineering and Survey/Geospatial practices, and to allow the office to better serve the real estate, mining, solid waste, and manufacturing industries in the Chicagoland area. CEC will begin to integrate new services through the Roake team to its regional and national clients immediately, and Roake's existing clients will gain new access to an array of services not previously offered.

To accommodate this strategic acquisition and service expansion, and the growth of CEC's operations in the Chicagoland area, CEC's office has relocated from Lombard to a new space in Naperville effective April 1, 2019. **CEC Chicago's new address is 1230 E. Diehl Road, Suite 200, Naperville, IL 60563.** The office retains its phone numbers from prior to the move (630-963-6026 and 877-963-6026) and continues to be led by Vice President John Hock, P.E.

Roake's leader, Jim Caneff, P.E., joins CEC as a senior principal in the Civil Engineering practice. Caneff is a licensed Professional Engineer in Illinois and has more than 33 years of experience in civil engineering. Caneff began with Roake in 1992 and has led it since January 2005. He serves a diverse client base of municipalities, county highway departments, school districts, park districts, private developers, residential builders, and national corporations.

Nine staff members from Roake have joined CEC, bringing their experience that includes the preparation of land, topographic, and route surveys; right-of-way and land acquisition documents; subdivision plats; builders surveying services; feasibility studies and reports; stormwater management design and permitting; highway and site design plans; specifications; project budgeting and estimating; municipal engineering services; plan review services; and construction observation services.

For more information about CEC's growth in Illinois, please contact John Hock, P.E., at jhock@cecinc.com, 877-963-6026 (toll-free), or 630-963-6026 and (local).
