# CECWomen

## OUR STORY

In 2018, Becky Feigh, a project manager in our Indianapolis office, pioneered the establishment of this program, having recognized the need for a community dedicated to connecting women across all of CEC's offices. Since then, we've formed a central Steering Committee, identified local champions in almost every CEC office, and hit the ground running!

## MISSION

- Create internal and external opportunities for CEC women to network and leverage one another's professional experience
- Open a dialogue and foster collaboration, feedback, education, and development
- Intentionally promote and celebrate accomplishments

## LONG-TERM OBJECTIVES

- Continue to recruit and retain talented and qualified women in the consulting industry
- Provide professional development opportunities
- Promote a collaborative network of professional women and facilitate leadership growth, both inside and outside of CEC

## OPPORTUNITIES YOU'LL ENJOY

- An annual book study
- Guest speakers
- Networking events
- Our new mentoring program
- Volunteering activities (ask us about CEC Community, our corporate program dedicated to meaningful contributions of our employees' time and talents!)

**All employees** are welcome to attend any CECWomen event.
