CEC Makes Significant Jump on ENR Top 500 List

Pittsburgh, PA — Civil & Environmental Consultants, Inc. (CEC) made a significant jump up 32 places on Engineering News-Record’s Top 500 Design Firms Rankings, moving from #192 in 2011 to #160 in 2012.

The entry states that the largest percentage of CEC’s $63 million revenue came from Industrial and Petroleum sources at roughly 35%, with General Building bringing in 22%. CEC President and CEO Kenneth R. Miller notes that the climb is the result of a combined increase in business from all industries served by the company: Electric Utilities, Manufacturing, Mining, Natural Gas, Real Estate, Solid Waste and the Public Sector.

“The jump represents more than increased revenue; it is evidence of our expansion across the board over the past year,” says Miller of CEC, which launched four new regional offices in 2011 and grew its nationwide staff by about 20%. “Our growth can be attributed to our focus on providing high quality, on-time services that enable our clients to achieve their business objectives.”

Headquartered in Pittsburgh, Civil & Environmental Consultants, Inc. (CEC) is a company of professionals who provide comprehensive industry-focused consulting services to advance our clients’ strategic business objectives; collecting, sharing, innovating and delivering knowledge, solutions and expertise in civil/site engineering, environmental services, ecological services, waste management and water resources. www.cecinc.com.
